Referral Program – A way to save. We wanted to thank all of the families and students for the years of dedication and loyalty you have given our school. It is our sincere goal to affect our community in a positive way by developing people both mentally and physically. Robinson's Taekwondo started 10 years ago with one student and met for classes 2 hours per week. Today our school has been recognized by the ATA as one of the Top Ten Black Belts schools in America. Our school has not been built by advertising, long term contracts, scams or gimmicks but by word of mouth. People telling people about the school. There is nothing more powerful than testimony. We would like to continue our vision of developing our community through the martial arts and would like to reward those students who pass on the word and share our school with others. Effective January 8, 2007. Robinson's Taekwondo will launch the Ambassador Program. If you know of someone who can benefit from our program, you invite them and they join you will receive a \$60 gift certificate which may be used for all merchandise or promotional testing or a \$40 gift certificate to Best Buy.
